## **DETAILED ACTION**

### ***Election/Restrictions***

1. The amendment filed on October 03 2006 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the originally presented claims 260, 261, 272,273, 288, 298, 309, 310, 320 and 322-327 were directed to a method and apparatus for interfacing between a terminal and a radio network, wherein the radio network has an asynchronous operating type and the terminal has a hybrid operating type being possible to be set as either a synchronous operating type or the asynchronous operating type and include providing the terminal with a message including a core network operating type information with the message being represented by a table, while the newly presented claims 328-357 are directed to a mobile communication system, a user equipment including an access stratum and a non-access stratum which includes a mobility management protocol (MM) and a call control (CC) protocol and a method for interfacing in a mobile communication system, including the transmitting and receiving of information representing a core network operating type, with the user equipment receiving the core network operating type information from the network and operating the MM protocol and the CC protocol in a mode indicated by the information representing the core network operating information type .

The originally presented claims do not require the detail of the communication system and user equipment as set forth in the newly presented claims for the

transmitting and receiving of the message including core network operating type information.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
